### **DETAILED ACTION**

The response filed on 2/28/2005 has been entered and overcomes the rejection of claims.

#### ***Election/Restrictions***

1. Claims 1-26 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 27-41, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 27-41 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 8/9/2004 is hereby withdrawn.

#### ***Allowable Subject Matter***

2. Claims 1-41 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claims 1 and 27, the prior art of record neither shows nor suggest a non-thermal plasma reactor comprised of, in part, a monolith comprising a plurality of channels, planar dielectric barriers and a plurality of exhaust channels, along with the rest of the limitations of the claims.

Due to their dependency, claims 2-26 and 28-41 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
